

revvi

16 XL

Premium Electric Balance Bike

Designed for Performance,
Safety, and Fun

Why Choose REVVI 16" XL?

-  Stronger torque and faster acceleration than standard kids bikes
-  Full suspension system for off-road comfort
-  Hydraulic braking system for superior safety
-  High-performance removable battery for extended ride time
-  Specifically designed for kids

Integrated Frame Design

Sleek one-piece frame with a modern, eye-catching look.

Built for durability while maintaining a premium appearance.

Powerful Motor Performance

500W rated motor with
600W peak power

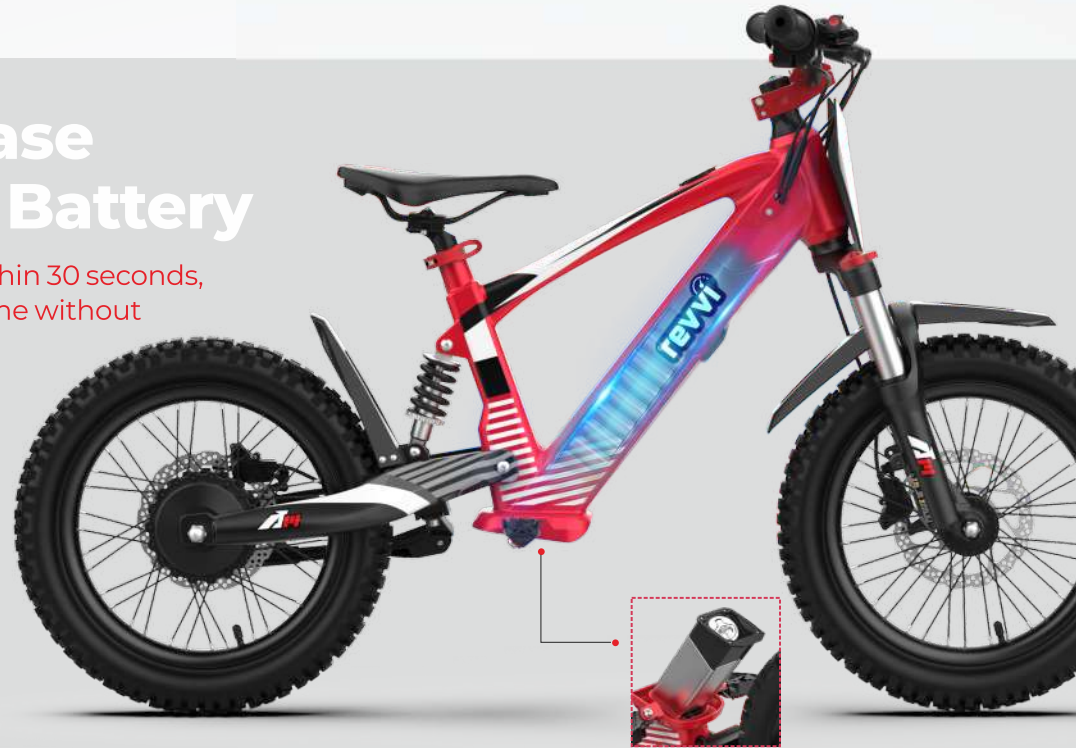

Delivers strong acceleration and
reliable performance across
different terrains.

High-Performance Power Battery

24V5AH battery equipped with high-discharge power cells, delivering stronger torque and faster acceleration

Quick-Release Removable Battery

Battery can be swapped within 30 seconds, allowing extended riding time without waiting for charging.

Three Adjustable Speed Modes

Adaptable to different skill levels:

 - Low: **9.5 mph** (Beginner)

 - Medium: **13.5 mph**

 - High: **17.5 mph** (Advanced)

Child-Friendly Control System

Ergonomic grip and patented twist throttle designed for smaller hands, making riding easier and safer.

Patented Twist Throttle
for progressive power
